

Make a difference

Welcome to Kálmán Öveges Demo Primary School

Some basic information

- The one-hundred-year-old building of our school is situated in the centre of the town. Our school is named after Öveges Kálmán who was the first teacher of our demo school.
- Our school that is maintained by the University of West Hungary has been connected to the traditional teacher training in Győr for 120 years.
- The trainee teachers of Apáczai Faculty of the University are prepared for their future profession with the help of experienced mentor teachers.
- Besides the task belonging to the higher education our other main goal is to perform public education at a high level providing our pupils with up-to-date knowledge. We want to achieve our aims with the help of great variety of activities, effective methods in a caring, supportive atmosphere.
- All the pupils showing interest, the ones who want to take on more than the average, who would like to belong to us coming from our town and the nearby villages on the base of the parents' decision and on the base of the school requirements are welcome to our school.
- Our school has got 450 pupils who are 7-14 years old and there are 35 teachers to teach them
